DAIRY COMPACTS

Mr. FEINGOLD. Mr. President, I rise in strong opposition to legislation introduced today by my colleagues Senator JEFFORDS, Senator LEAHY, Senator COCHRAN and Senator SPECTER. They have introduced a measure which will further aggravate the inequities of the Federal Milk Marketing Order system. Their legislation will make permanent and expand the Northeast Interstate Dairy Compact and will authorize the establishment of a southern dairy compact.

Despite the discrimination against dairy farmers in Wisconsin under the Federal Dairy policy known as the Eau Claire rule, the 1996 Farm Bill provided the final nail in the coffin when it created and authorized for 3-years, the existence of the Northeast Interstate Dairy Compact. The Northeast Interstate Dairy Compact sounded benign in 1996, but its effect has been anything but, magnifying the existing inequities of the system.

The bill which authorized the Northeast Interstate Dairy Compact established a commission for six Northeastern States—Vermont, Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut. This commission set minimum prices for fluid milk higher even than those established under Federal Milk Marketing Orders. Never mind that the Federal milk marketing order system, under the Eau Claire rule, already provided farmers in the region with minimum prices higher than those received by most other dairy farmers throughout the nation.

The compact, which controlled three percent of the country's milk, not only allowed the six States to set artificially high prices for their producers, it allowed them to block entry of lower priced milk from producers in competing States. To give them an even bigger advantage, processors in the region get a subsidy to export their higher priced milk to noncompact States. It's a windfall for Northeast dairy farmers. It's also plainly unfair and unjust to the rest of the country.

Mr. President, the Northeast Interstate Dairy Compact (NEIDC) is set to expire at the implementation of USDA's new Federal Milk Market Order system. According to the Omnibus Appropriations measure passed last year, the expiration date of the NEIDC is scheduled for October 1, 1999. Now, Members of Congress are pushing for an extension and expansion of the existing milk cartel and for the authorization of another.

To make clear the magnitude of this legislation on producers and consumers

we need to only look at the numbers. Currently, three percent of milk is under a compact, conceivably, under this new measure, over 40% of this country's milk will be affected. More importantly, one hundred percent of this country's milk prices will be affected—in Wisconsin, prices will be adversely affected.

These compacts amount to nothing short of government-sponsored price fixing. They are unfair, and bad policy. Now, my colleagues would like you to make this compact permanent, expand it to include other states, and authorize a southern dairy compact. After three years, we know that dairy compacts:

Blatantly interfere with interstate commerce and wildly distort the marketplace by erecting artificial barriers around one specially protected region of the Nation;

Arbitrarily provide preferential price treatment for farmers in the Northeast at the expense of farmers in other regions who work just as hard, who love their homes just as much and whose products are just as good—maybe better in Wisconsin;

Irresponsibly encourage excess milk production in one region without establishing effective supply control. This practice flaunts basic economic principles and ignores the obvious risk that it will drive down milk prices for producers everywhere else in the country;

Raises retail milk prices on the millions of consumers in the Compact region;

Imposes higher costs on every taxpayer because we all pay for nutrition programs such as food stamps and the national school lunch programs that provide milk and other dairy products.

As a price-fixing device, the Northeast Interstate Dairy Compact was unprecedented in the history of this Nation. As a dairy cartel, it is a poor legislative fix and bad precedent to deal with low milk prices.

Wisconsin's dairy farmers are being economically crippled by federal dairy policies. It's time to bring justice to federal dairy policy, and give Wisconsin Dairy farmers a fair shot in the market place.

I urge my colleagues not to buy into the rhetoric surrounding this issue. I urge you to work together towards fair national dairy policy. A policy that provides all dairy producers a fair price for their commodity, a policy that allows all of this country's dairy producers to succeed on the basis of hard work and a good product.

I urge my colleagues to oppose this legislation and to join me in the fight against its passage.

MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to

the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGE REFERRED

As in executive session the Presiding Officer laid before the Senate a message from the President of the United States submitting a nomination which was referred to the Committee on Foreign Relations.
